

## HOW TO TAKE YOUR MEASUREMENTS:

### Bust Measurement #1

over the biggest part of bust (back width: measure horizontally from armhole to armhole seam).

### Waist Measurement #2

tightly over the waist tape.

### Hip Measurement #3

over the largest part of your bottom/thighs.

### Shoulder Width #4

from the neck to the top of arm.

### Upper Arm Measurement #5

around the widest part of the biceps.

### Girth #6

hold the tape measure from the highest point of right shoulder through crotch and up to the highest point of the left shoulder (do not make taut when you take the "Girth" measurement.)

\* Of greatest importance is the girth measurement.

\* To determine proper girth measurement, place tape at center of right shoulder (front), over bust, through crotch, to center left shoulder (back).

- Check the girth with the chart and find the size under which it is located. If all measurements are close to those listed under that size, even if not exactly the same, order that size.
- Wear leotard or underwear when measuring for the Bodysuit.

Sizing Chart "A"  
Use for all in-stock outfits, pants, leotards and Starlight.

Size	Bust	Waist	Hips	Girth*
Small	32-34	23-25	34-36	55-58
